Spring 2011

Campaign for Digital Mammography

Fighting Breast Cancer in Grey-Bruce

Early detection is the key to surviving cancer. Mammograms (breast screening) help save lives by finding breast cancer when it is in its early stages.

“Let’s get it checked out.”

“Those are the first words I heard,” noted Mary Thomson, cancer survivor. “The words that sent me on a journey I never expected to take.”

With no history of breast cancer in her family she hardly gave a second thought to the small abnormality found during a mammogram.

“But then I heard the words” “It’s cancer.”

Really? How could this be? How was I going to tell my children? I had two daughters in university and two sons in high school. All of their lives I’d only cared for them. Now it was my turn to care for myself.

After two surgeries to remove the cancerous cells and 6 weeks of radiation treatment, I heard the words that every cancer patient hopes for: “We got it. You’re all clear.”

“My story is a short and sweet one,” notes Thomson. I went from mammogram to cancer-free – all within a few months. But it might not have been. If it weren’t for early detection, my cancer would have likely progressed for at least a few years. Instead of a quick and painless experience – I could have endured months of suffering and even lost my life.”

You can help mothers, sisters and wives, all women across Grey-Bruce by helping the Owen Sound Regional Hospital to upgrade to the latest digital mammography equipment.

The Foundation’s spring campaign, golf tournament and the Bayshore Race will all be raising funds to support this critical need. About \$1.5 million is needed to purchase the new equipment and complete renovations.

This equipment helps women from across the region, so the Foundation is getting help with fundraising from other GBHS Foundations in Meaford, Wiarton and Lion’s Head, Markdale and Southampton.

Breast cancer survivor, Mary Thomson.

The upgrade to digital equipment has many benefits to patients and doctors. Digital mammography tests are complete in less than half the time – images appear within seconds of being taken. Images created allow doctors to more easily spot potential problems. Digital storage of images means no more x-ray film to store, and no misplaced tests.

Patients experience some discomfort during the test. Digital mammography tests take less time, so the period of discomfort is reduced.

Help us find cancer while it is in its early stages. The smaller the cancer, the better the chance of treating it successfully. Early detection means cancer is less likely to spread and there are more treatment options.

“I’m living proof of what this kind of technology can do,” said Thomson. “I hope everyone will consider supporting this campaign to make sure thousands of women will have the gift of early detection.”

To make a donation, use the tear-off on the back page of this report, visit the Foundation website oshfoundation.ca or call the Foundation office at 519-372-3925.

Ontario Breast Screening Program

“For women over 50, regular mammograms are the key to finding breast cancer early,” said Anne Robertson, GBHS Director of Diagnostic Imaging.

Through the Ontario Breast Screening program, regular mammograms are available to women ages 50 and up. Contact the Ontario Breast Screening Program at the Owen Sound Regional Hospital to make an appointment, 519-376-8637.

Women 50 and up can book an appointment without a referral from a doctor. If you are under 50 and have concerns about breast cancer, contact your family doctor. The Hospital provides mammograms for women of all ages who are referred by a doctor.

Between 1989 and 2005, breast cancer mortality rates in Ontario women age 50-69 decreased by 35% due to improved cancer treatments and increased participation in mammography or breast screening.

In Appreciation - We salute our partners in healthcare

Thank you for supporting your Hospital

Your support helps make miracles happen at the Owen Sound Regional Hospital.

While the government provides funding to operate hospitals, relatively little funding is available for new or updated medical equipment. Donations play a crucial role in keeping the Hospital well-equipped to meet the needs of patients.

The following list of donors includes those who have made donations totalling \$50 or more between April 1, 2010 and May 1, 2011.

Founders include those individuals who have donated to the Foundation every year since the Hospital opened. Partners are supporters who have donated in the last year, up to May 1. Donations by clubs and

organizations, corporations and bequests are listed separately.

Founders – page 2

Partners – page 2

Clubs and Organizations - 20

Business and Corporations - 23

Bequests - 19

Sometimes we slip and miss a name that should be on our list! If we missed your name, please call the Foundation office and let us know, so we can correct our records. You can reach us at 519-372-3925.

If you wish to be anonymous so that your name will not appear in this report, contact the Foundation Office.

We value your privacy! While we publish a list of donor names we do not sell, trade or share our mailing lists!

FOUNDERS

These donors have given every year since the Hospital opened. They are an exclusive group that can never be added to.

The 71st annual Christmas Fund Broadcast was held Sunday, December 5th. A portion of funds raised supported the purchase of new sleeper chairs for Paediatrics. Cheryl McMenemy of the Sun Times, centre left and Bayshore Broadcasting President & General Manager Ross Kentner, right present a cheque to Paula Clark, manager of the Hospital's Women & Childcare Unit and Foundation Chair Mark Ostland, left.

You Help Make Miracles Happen

More than ever, your support for the Hospital is critical to healthcare in our region. The word “thanks” seems inadequate even though it sums up the most important message we want to send to you.

Thanks for helping to improve heart care. With your support we will be upgrading six ECG machines to the latest technology, plus installing a new digital system to store and manage tests. ECG is a test that is at the front line of diagnosing heart problems. About 12,000 ECG tests are completed at the Hospital each year.

We will also be adding cardiac ‘loop’ recorders that are worn by patients in and out of the Hospital to record ECG data when patients experience symptoms. These are just a few of the pieces of equipment you helped us fund this year. You’ll find a complete list below. Your support for these critical pieces

Foundation Chair Mark Ostland, left and Vice-Chair, Doug Grahman.

of equipment will help thousands of people. I would like to highlight the

wonderful support our Christmas Campaign received. Thousands of you from all across the region

helped us to raise over \$345,000 to support equipment needed at the Hospital.

What’s next? This year we have a very special project that will help save lives in our region. Check the cover page to learn about the work we are doing to help fight breast cancer in Grey-Bruce.

You will hear more about this and other needs as we move into the future. In the meantime, once again, thanks for keeping our Hospital in mind as our doctors, nurses and other staff work to provide the best possible care close to home. Your support helps make miracles happen.

I would like to acknowledge and thank our many volunteers who assist with fundraising. They make events like our golf tournament, curling bonspiel and the Bayshore Race possible.

Mark Ostland
Chair, Owen Sound Regional Hospital Foundation

You are a Part of Our Success

Grey Bruce Health Services
President and CEO Maureen Solecki

First let me thank each of you for the ongoing support of your Hospital through the Owen Sound Regional Hospital Foundation. Your contributions help to fund much needed medical equipment that is critical to the work of our physicians, nurses, technologists and support staff.

Equipment purchased with your support has contributed significantly to our successes in recent years. It is this equipment – and the MRI with more than 11,000 visits last year is a perfect example - that helps the Owen Sound Hospital continue to meet the healthcare needs of the residents of Grey - Bruce.

Another highlight of that support was the arrival of the new nuclear medicine camera. This equipment is a big step forward in technology that will benefit many thousands of cancer and heart patients. Thanks for helping to make this possible. You’ll find more on the nuclear medicine camera on page 5.

Our year end financial results are not yet available but we are optimistic that we will meet our expectations and achieve a balanced budget in the 2010-11 fiscal year. We continue to face financial challenges in the 2011-12 year in our operating budget

as the challenges faced by the Ontario government in this weak economy will continue to have an impact on the funding available to meet inflationary pressures in the healthcare sector.

GBHS is just completing its next strategic plan. A large

number of stakeholders have been involved in providing input to this plan and we are very grateful for their insights. The plan will be shared with our community at the Annual Report to the Community on June 22nd at St. Mary’s Parish Centre in Owen Sound

Thank you again for being such a big part of our success in safely and effectively providing high quality care to our patients.

Maureen Solecki
President and CEO
Grey Bruce Health Services

How you helped your Hospital

Every year the Owen Sound Regional Hospital needs new and updated medical equipment. Some equipment purchases replace or upgrade worn out or obsolete items. Other equipment is new, allowing the Hospital to offer the latest medical tests and procedures, close to home.

Doctors and Hospital staff identify the highest priority equipment needs. The Foundation works to raise funds for these items. Over the last

year your donations supported the following items:

- ECG Monitors and Management System - \$240,000
- ECG Loop Recorders - \$30,000
- Laboratory Biopsy Processor - \$61,500
- Hematology Analyser - \$14,000
- PACS Viewing Station for Emergency Department Trauma Room - \$11,000

- Patient Heating/Cooling System - \$16,300
- Nurse Call System for Rehabilitation Unit - \$81,000
- Wheelchairs (25) - \$25,700
- Surgical Lights - \$35,500
- Spirometer for Respiratory Therapy - \$5,700
- Nurse Call System for Women and Childcare Unit - \$178,000
- Plus other needs, including staff training and gifts designated to oncology, pediatrics and palliative care.

Nuclear Medicine Camera Arrives

The Hospital's new Nuclear Medicine camera began serving patients in September.

"It's a thrill to have the new equipment here," said Dr. Laura Howlett, GBHS Chief Radiologist. "Thanks to donors we are able to offer state-of-the-art nuclear medicine testing to our patients."

More than \$800,000 in donations were received over a two year period. Thousands of donations were received including a \$200,000 donation from Bruce Power.

"Improvements like this are only possible with community support," said Foundation Chair, Mark Ostland. "I would like to thank everyone for helping to update such an important regional service."

The technology at the heart of the new machine is "single photon emission computed tomography" or SPECT.

"SPECT gives us the ability to view areas of interest in three dimensions, rather than two," said Dr. Howlett. "3D images are very helpful in cancer studies or when we're looking at the function of the heart."

CT is the other technology

Nuclear Medicine Technologists, Melinda Matcheski, left, Sharon Henderson, right and Ann Hemstock, centre, with the new nuclear medicine camera.

built into the new machine. Whereas a nuclear scan shows the function of the organ, the built-in CT help to clearly see

the anatomy surrounding it for a more complete study. When the two images are combined, the result is a "hybrid" image.

"Its 3D capabilities and integrated CT makes this camera state-of-the-art," said Dr. Howlett. "The images are

stunning! Because it gives us a more complete picture, the new camera has really improved our diagnostic capabilities."

Thanks to Christmas Angels

Thanks to the support of thousands of Christmas Angels, the Owen Sound Regional Hospital will be able to make important improvements in heart care.

The campaign received over \$345,000 in donations from supporters across the region.

"Wow, what a wonderful Christmas present for our patients and a great way to start the year," said Dr. Bob Severs, GBHS Chief of Staff.

"With this support, we will be able to make important

improvements to ECG testing," said Severs.

Mark Ostland, Chair of the Foundation, added his thanks. "Donors make such an important difference at the Hospital. We have great people working here, but they need the latest tools to do their work. Donors make that happen."

ECGs are among the most important tests performed on patients with heart problems. Over 12,000 ECG tests are done here each year.

The funds raised will support a new computerized system that will allow electrocardiogram test results to be stored digitally on the system, eliminating paper test results. Tests can be viewed and reported on by specialists remotely, improving diagnosis and speeding time to treatment. It's a big step forward.

There are several other pieces of equipment that will help heart patients. Portable heart recorders are worn by patients both in and out of the

Hospital to record ECG data when the patient experiences symptoms like dizziness, shortness of breath or heart palpitations. A new heating and cooling system is used to lower the body temperature of patients who have suffered cardiac arrest. Cooling the body helps to minimize damage to the patient's brain and heart muscle.

The Hospital will be moving as quickly as possible to get the new equipment in place and serving patients.

Cancer Care Role Continues to Grow

Thousands in Grey-Bruce are cancer survivors, thanks to services offered at the Owen Sound Regional Hospital.

Over the 25 years since the Hospital opened, cancer care services provided have grown dramatically. Today the Hospital is a centre for cancer care in the region, working in cooperation with other Cancer Centres in Kitchener, London, and Toronto.

The Hospital provides services to diagnose, treat and monitor cancer patients. Diagnostic services including mammography, CT and MRI scans and nuclear medicine tests, colorectal cancer screening, and lab testing of thousands of cancer biopsies. Treatment services include cancer related surgeries and chemotherapy. Then there are the follow-up visits with patients.

About two dozen specialist physicians are involved in cancer care, including oncologists, surgeons, radiologists and pathologists.

About 11,000 patient visits are made to the Oncology department each year. Most of these are related to chemotherapy treatments. This makes oncology and chemotherapy second to only

Dozens of doctors, nurses, technologists, social workers and other staff help to care for cancer patients. Some of the staff in the Oncology Unit gather for a photo. From the left, Mary Anne Murray, Colleen McKeows, Rebecca Mueller, Susan Dugard, Erin Bailey, Brent Oldham, Lorraine Abra, Patrice Griffith, Jo-Ann Baker, Dr. Huma Qawi, Gail Elliott, Sandra Pedro. Below is Dr. Ismal Aboo.

day surgery, CT scans and ER visits in terms of sheer volume of patients coming to the regional hospital.

“Cancer care continues to be an area of rapid growth in the health care we provide to our patients,” noted Maureen Solecki, GBHS President and CEO. “The incidence of cancer continues to rise so there is every indication that this

growth will continue well into the future.”

“Most days there are over 20 patients receiving chemotherapy,” said Mark Landy, Program Manager for Oncology. “Another 20 to 30 have other clinic appointments. These numbers are far beyond what our facilities can comfortably handle. There is simply not enough space in the

Oncology department and chemotherapy treatment area for the number of patients we have, and that number keeps growing.”

Plans are underway to begin addressing this issue. The Owen Sound Regional Hospital Foundation and the Foundations that support the other Grey Bruce Health Services Hospitals are beginning to plan for a fundraising campaign that will support major improvements to Cancer Care.

Cancer Care Ontario (CCO), the agency that coordinates cancer services in the Province, has recognized that the services offered in Owen Sound are critical. For the thousands who have had treatment here, that would be no surprise.

Approval has been received from CCO for the addition of a third oncologist at the Owen Sound Regional Hospital. Having a strong medical oncology group is expected to assist in the Hospital’s long term effort to bring a radiation treatment to the Owen Sound Hospital.

A joint feasibility study to create a radiation therapy service was recently submitted to Cancer Care Ontario for inclusion in future cancer planning.

Run, Walk, Pledge or Volunteer 2nd Annual Bayshore Race Coming Up!

Mark your calendar: Sunday, August 28 is the 2nd annual Bayshore Race to support the Owen Sound Regional Hospital.

The Foundation hopes to build on the success of last year’s event which drew over 400 runners and walkers.

This year the event will be helping in the fight against breast cancer in Grey-Bruce by supporting the purchase of new mammography equipment. Register now at www.Bayshorace.com and start fundraising!

Once again the event will feature

a ½ Marathon and 10 km Road Race with “ChampionChip” timing for seasoned runners and “power walkers”, a 5 km fun walk is also being offered. In addition there will be a 5 km run and 1 km fun run for kids, both timed. Or, you can make a pledge or even volunteer.

Organizer Greg Nicol is hoping to attract participants from throughout southwestern Ontario. Races start at the Bayshore Community Centre in Owen Sound at 8:00 am and follow the east Bayshore Road. The 5 and 10 km races will turn around at Hibou Conservation Area. The ½

Marathon will pass through Leith, Annan and return by way of Sideroad 21 to the Bayshore Centre.

Last year the event raised about \$22,000 for the purchase of new ECG machines at the Owen Sound Regional Hospital. A great result for the first year of the event!

About 50 volunteers, including many members of the Knights of Columbus, helped to run the event. A big thank you to all the participants, volunteers, sponsors and everyone who pledged!

Lead sponsor for the event again this year is Jeremy W. Wentworth Stanley – CIBC Wood Gundy.

Bayshore Race participants show off their awards.

Endowment Celebrates 15 Years of “Caring for Tomorrow” with Special Gift

Fifteen years ago, the Foundation’s “Caring for Tomorrow” Endowment Fund was officially launched with a ceremony in the Hospital lobby on September 18, 1996. The goal was to build a permanent fund to support future equipment purchases for the Hospital.

That afternoon, the endowment was presented with its first gift, an anonymous future gift of \$250,000 made through a life insurance policy.

That gift was made by Mrs. Merna Litwiller of Meaford, who passed away on April 20 at age 91.

“We were saddened to learn that Merna passed away, said Foundation Executive Director, Paul Weitendorf. “She was a wonderful supporter of our Hospital and Foundation and we came to know her pretty well over the years. It’s fitting that as we mark a 15 year milestone for our Endowment - we now also

Merna Litwiller supported the Hospital Foundation with a life insurance gift.

remember Merna and celebrate her gift that helped us launch our Fund.

Through her gift, Mrs. Litwiller also hoped to inspire others to plan something similar for the Hospital. She succeeded!

In the 15 years since purchasing her life insurance policy, the Endowment has grown to more than \$11 million through many will bequests, stock gifts, RRIF proceeds and other forms of legacy gifts. During that same time, the Endowment has

already contributed almost \$1.8 million in annual income to the Hospital.

Donations to the Endowment are permanently invested using a conservative approach. The annual income generated supports the Hospital. The Endowment is comprised of a large “Emerging Needs” fund which supports the Hospital’s top equipment priorities. Twenty-three named and special purpose funds have been established by individuals and families so far.

“It’s just wonderful to see people support their Hospital and their community through a gift like this,” says Foundation Chair Mark Ostland. “Through the Endowment, Mrs. Litwiller’s gift will improve hospital care for future generations year after year. Just imagine how many lives will be impacted!”

There are several ways to make a gift with life insurance.

Donors may wish to purchase a new policy and name the Foundation as both owner and beneficiary like Mrs. Litwiller did. This way, policy premiums qualify for donation receipts. An alternative is to name the Foundation as beneficiary only, so that the estate receives the tax benefit for the policy proceeds. It is also possible to donate an existing paid up policy that is no longer required. Ownership of such a policy could be transferred to the Foundation, and a tax receipt issued for its market value.

“Life insurance enables almost anyone to make a substantial legacy gift that might otherwise be far beyond their present resources,” added Ostland.

More information on the “Caring for Tomorrow” endowment fund, legacy giving, or giving through insurance, is available by calling the Foundation at 519-372-3925.

Fleming Fund for Critical Care Established

A new endowment fund has been established to benefit the Owen Sound Regional Hospital. The Diana Sherry Fleming Endowment for Critical Care was established in December, 2010 to help fund new medical equipment and items for patient comfort for the Critical Care, Intensive Care and Stepdown Units at the Hospital.

A volunteer for more than 50 years, Mrs. Fleming lived a life of service for the Hospital and its patients. She passed away on July 10th last year at the age of 82.

“She remembered several charities in her Will with wonderful legacy gifts,” said Foundation Chair Mark Ostland. “Her bequest to us will help this year with several key projects, but we also wanted to do something to honour and celebrate her contribution to the Hospital in a more lasting way.”

The Foundation Board directed \$100,000 to be set aside as a permanent endowment named for Mrs. Fleming. The annual income will support Critical Care - where she spent much of her volunteer time.

Mrs. Fleming began volunteering at the Owen Sound General & Marine Hospital in 1951 at the age of 23. In the early 1970’s she served as Chair of Volunteers - a liaison between hospital staff and Auxiliary. She was also active in patient services. After the move to the new hospital in the ’80s, her volunteer assignments included Gift Cart, Health Sciences Library, Day Surgery, Recovery Room, ER, and Patient Registration.

She described her work in Critical Care as “support person to patients and their families”. “I like having the time to talk to people and sit with them,” she

said in a 1988 interview with the Owen Sound Sun Times. She worked to ease pain and discomfort for patients and generally help to make the Hospital a more comfortable place.

GBHS President and CEO, Maureen Solecki presented Mrs. Fleming with her 50 year service award in 2001. She retired from volunteering at the Hospital in 2002.

GBHS Volunteer Resources Manager, Carol Smith thinks the endowment is a fitting tribute. “She was always a friendly face and a kind word to patients and their families. She made the Hospital a little more personal. Her endowment is a way we can celebrate and continue her work for years to come.”

In addition to volunteering, Mrs. Fleming was a strong supporter of the Foundation. She donated regularly in memory of

loved ones and supported various annual campaigns for medical equipment. She also gave generously to several capital

campaigns including the one to equip the Hospital originally and most recently, the MRI campaign.

Sherry Fleming volunteered at the Hospital for over 50 years. Here she is shown in a Sun Times newspaper photo from 1988.

Estate of D.S. (Sherry) Fleming	Pufahl	Thomas Moore
		Frank B. Myatt

IN MEMORIAM

There is no finer way to honour the memory of a departed loved one than to make a provision to those who remain. In Memoriam donations to the Foundation help improve health care for the entire community. The names of everyone for whom we have received an In Memoriam donation are recorded in the hospital lobby. The following donations were received between April 1, 2010 and May 5, 2011.

IN HONOUR

Many people are now choosing to honour or show appreciation to others on special occasions or for special service received, in a way that is meaningful and benefits the community. Between April 1, 2010 and May 5, 2011 we received donations in honour of:

Owen Brindley's 1st birthday
Mrs. Joan Crowe
Paul & Leone Diebel's 40th Wedding Anniversary
Dr. Don Eby
Fall Classic Slo-Pitch Tournament 2010
Oran & Kaye Farquharson's 50th Wedding Anniversary
Dr. & Mrs. Murray Flock
Ava Lynn Gregg's birth

Bob & Carol Griffith's 50th Wedding Anniversary
Dr. Glenn Harada's Retirement
Terry Haswell's Birthday
Bill & Mayme (Bothwell) Hillis' 50th Wedding Anniversary
Ted & Carol Hopper's 50th Wedding Anniversary
Isobel Kirk's birthday
Bob & Joanne MacDonald's 50th Wedding Anniversary

Cash Masse's 2nd birthday
Patrick McDonough
Scott & Amy Morrison's Wedding
Norman & Elda Oldrieve's 50th Wedding Anniversary
Jack & Elaine Osadzuk's 50th Wedding Anniversary
Madeleine Potter's birth
Earl & Joyce Robinson's 60th Wedding Anniversary

Arend & Phyllis Schipper's 50th Wedding Anniversary
Murray & Beverly Schneider's 60th Wedding Anniversary
Morris Schnurr's 80th Birthday
Roy & Ann Spence
Geoff Stevens
Hayden Wardell's 6th birthday
Kyle & Cathy Watson's 40th Wedding Anniversary
Mr. D. John Wilson
